- d. Knowledge of weed management, including: (3-19-07)
 - i. Burning; (3-19-07)
 - ii. Mowing, cutting or roguing; (3-19-07)
 - iii. Mechanical methods; and (3-19-07)
 - iv. Herbicides. (3-19-07)
- e. Inspection forms. (3-19-07)

04. Certification Program. (3-10-00)

- a. The department or its agent shall: (3-10-00)
 - ii. Train persons who serve as approved inspectors; (3-10-00)
 - iii. Issue certificates of inspection, transit certificates, to qualifying participants; (3-19-07)
 - iv. Maintain a record of inspections performed and certificates issued; (7-1-94)
- b. Under the direction of the department or its agent an approved inspector may perform inspections and issue certificates of inspection, transit certificates, within the state at cost. (3-19-07)

05. Application for Certification. (7-1-94)

a. Application for certification inspection shall be made on forms available from the department or its agent and submitted to the department or its agent. (5-8-09)

b. An applicant's signature on the application for certification is verification of the accuracy of the information submitted, and signifies the applicant's intent to comply with the post-certification and distribution requirements. (3-10-00)

06. Pit/Pile Inspection Procedures. (7-1-94)

a. Gravel or rock products shall be inspected within ten (10) days prior to shipping or loading in the pit/pile of origin for each pit/pile to be certified. (3-19-07)

b. Each pit/pile inspected shall be identified by the name of the owner and a pit/pile name or number. The certification inspection may be performed on an entire pit/pile or a portion of a pit/pile, if the portion is plainly marked and identified prior to inspection. (3-10-00)

c. Pit/pile inspections must take place prior to any operation that will limit the approved inspector's ability to properly inspect and certify the pit/pile. Pit/pile's that have been move or loaded prior to inspection are ineligible for certification. (3-19-07)

d. There shall be a minimum of two (2) entry points per pit/pile. (3-19-07)

f. Each point of entry shall be at least one-hundred fifty (150) feet into the pit/pile, and each additional one-hundred fifty (150) feet traveled shall constitute an entry point. Travel shall be uninterrupted, proceeding through the pit/pile being inspected. (3-19-07)

g. The entire pit/pile border shall be physically inspected. (3-19-07)

h. The pit/pile inspection will include all ditches, fence rows, roads, easements, rights-of-way, or buffer zones surrounding the pit/pile. (3-19-07)

i. Gravel or rock products which contains any noxious weeds as identified in Section 22-2402(15) or noxious weeds listed on the North American Noxious Weed List, may be certified if the following requirements are met: (3-19-07)

i. Pit/pile in which the gravel or rock products were produced was treated to prevent seed formation or seed ripening to the degree that there is no danger of dissemination of the seed, or any injurious portion thereof from such noxious weeds, or undesirable plant species, or the propagating parts of the plant are not capable of producing a new plant; (3-19-07)

ii. Noxious weed(s) were treated not later than rosette to bud stage, or boot stage for grass species classified as noxious weeds, prior to cutting or harvesting; and (3-19-07)

iii. Treatment methods can include, but is not limited to burning, mowing, cutting or roguing, mechanical methods, or chemicals. (3-19-07)

j. An inspection certificate shall document that the above requirements have been met. (3-19-07)

l. Interstate shipment of gravel and rock products shall be accompanied by an original transit certificate issued by the approved inspector in the county of origin. The storage area shall also be inspected and shall be free of noxious weeds.

m. An approved inspector may not inspect pits/piles of which said inspector has ownership or financial interest. (3-19-07)

07. Certification Standards. After completing an inspection, the approved inspector shall complete a certificate of inspection. (3-10-00)

a. If the pit/pile or product inspected is certified as North American Noxious Weed Free, the approved inspector shall issue a certificate of inspection for that crushing. If the pit/pile or product contains North American Noxious Weeds, but does not contain Idaho State noxious weeds, it may be certified as Idaho State noxious weed free, and such certification shall be noted on the certificate of inspection. (3-19-07)

b. If the pit/pile or product inspected is certified as noxious weed free, as defined in these rules, the approved inspector may also issue, upon request, any of the following documents: (3-19-07)

i. Transit certificates. (7-1-94)

c. Certificates of inspection, transit certificates shall be on forms prescribed by the department or its agent. (3-10-00)

08. Copy of Inspections and a List of Approved Inspectors. Upon request, the agent shall provide the department with a copy of certificates of inspections issued and a current list of approved inspectors. (3-10-00)

09. Reciprocity. Gravel or rock products certified under a reciprocal agreement between the department and another state, and certified as North American Noxious Weed Free according to the other state's approved certification standards, may be shipped into the state of Idaho and shall be considered to meet the requirements of the Idaho program. (3-19-07)

10. Exports. Certification under these rules does not qualify a product for export from the United States. Applications for certification for export should be made directly to the Division of Plant Industries within the department. (3-10-00)

11. Voluntary Posting. After certification, a producer may post signs, or other forms of notification, on the certified product indicating that the product is certified as noxious weed free. (3-10-00)

12. Post-Certification and Distribution Requirements. After a producer's product has been inspected and certified, the producer shall: (3-19-07)

a. Take reasonable and prudent steps to protect the certified product from contamination; (7-1-94)

b. Keep the certified product separated from all uncertified product; (3-10-00)

e. Provide the shipper, trucker, or transporter with the appropriate number of transit certificates.

13. Cancellation for Failure to Comply. Any person who provides false information on an application for inspection or who fails to comply with the post-certification and distribution requirements may, upon order of the director, be suspended for a period of up to two (2) years from participating in the gravel and rock products program. (7-1-94)

14. Enforcement and Cancellation. Certified lots of gravel or rock products from certified pits/piles may be checked at any time by an approved inspector. Manufactured lots of gravel or rock products may be checked at any time by an approved inspector. Evidence that gravel or rock products are not from a certified pit/pile or that any lot has not been protected from contamination shall be cause for cancellation of certification. (3-19-07)

15. Misuse of Transit Certificate and Certification Markings. Using a transit certificate or

certification marking for gravel or rock products from a pit/pile that has not been certified shall constitute a violation of these rules.

(3-19-07)

16. Certification Fees. A minimum of thirty dollars (\$30) per inspection shall be charged by the certifying entity. The agent is authorized to assess a general fee of thirty dollars (\$30) per inspection to recover overhead costs, if the certifying authority chooses, time and mileage may be assessed in lieu of the minimum fee above, and rates will be calculated on actual employee costs and the current federal mileage rate. The agent may waive the general fee if the applicant has already been assessed a similar fee for other inspections. (3-19-07)
