

A. General Information

- 1) Identify the general components of your animal health management program including preventive and management practices:
- choosing well-adapted species selective breeding pasture rotation good sanitation
 nutritional supplements vaccinations good quality feed probiotics
 good ventilation in housing access to outdoors dry bedding culling
 isolation for purchased/diseased animals low stress handling other (*please specify*)

B. List all past health or disease problems and products/treatments used or to be used

HEALTH PROBLEM/DISEASE	NAME BRAND OF PRODUCT/TREATMENT USED	APPROVED BY:			
		NOP	WSDA	ISDA	OMRI
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

C. Include vaccinations and parasiticides given or planned:

Animal ID	Date	Medication	Reason	Preventative Practice

- 1) Please provide the name, address, and phone number of your veterinarian:
- 2) Are your animals tested for specific diseases on a routine basis? Yes No
- a) If yes, what diseases are they tested for?

- b) If yes, how is the testing done? by yourself veterinarian state or federal official
 other (please describe)

D. Pest management

1) Indicate all livestock pest problems.

- flies internal parasites external parasites predators
 other (*please describe*)

2) What prevention and control measures do you use to control for flies?

- sanitation/manure removal commercial fly parasites/predators sticky tape
 walk-through fly traps allowed/restricted pesticides good quality feed
 other (*please specify*)

3) What prevention and control measures do you use to control for internal and external parasites?

- probiotics garlic or herbs controlled grazing multi-species grazing
 allowed/restricted synthetic de-wormers diatomaceous earth
 other (*please describe*)

a) How do you monitor livestock for internal parasites?

- visual/body condition fecal analysis anemia evaluation
 other (*please describe*)

b) How often is monitoring done?

- daily weekly other (*please describe*)

4) If external parasites are a problem, what prevention and control measures do you use?

- facility sanitation facility fumigation dust/mud wallows sulfur dusts
 diatomaceous earth allowed/restricted pesticides medications
 other (*please describe*)

a) How do you monitor livestock for external parasites?

- visual inspection of animals visual inspection of facility

other (*please describe*)

b) How often is monitoring done?

daily weekly other (*please describe*)

5) What control measures do you use for predators?

- restrict grazing when predation is frequent artificial lighting fencing traps
 corral/lock up animals at night bird netting hunting guard animals
 noise makers other (*please describe*)

a) Do you take steps to ensure that your control measures do not harm other wildlife? Yes No

E. Physical Alterations:

- 1) List physical alteration practices you use None used castration de-horning
 ear notching tail docking branding removal of extra teats
 other (*please describe*)

2) Please describe physical alteration practices as listed above:

ALTERATION PRACTICE	METHOD USED AND MEANS FOR REDUCING LIVESTOCK STRESS	REASON FOR ALTERATION PRACTICE
