

**A. General Information**

1) Identify the general components of your animal health management program including preventive and management practices:

- choosing well-adapted species       selective breeding       raise own replacement stock
- isolation for purchased/diseased animals       vaccinations       culling       good quality feed
- good ventilation in housing       access to outdoors       dry bedding       good sanitation
- nutritional supplements       pasture rotation       probiotics       low stress handling
- other (*please specify*)

**B. List all past health or disease problems and products/treatments used or to be used**

HEALTH PROBLEM/DISEASE	NAME BRAND OF PRODUCT/TREATMENT USED	APPROVED BY:			
		NOP	WSDA	ISDA	OMRI
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**C. Include vaccinations and parasiticides given or planned:**

Animal ID	Date	Medication	Reason	Preventative Practice

1) Please provide the name, address, and phone number of your veterinarian:

2) Are your animals tested for specific diseases on a routine basis?       Yes       No

a) If yes, what diseases are they tested for?

b) If yes, how is the testing done?       by yourself       veterinarian       state or federal official

other (*please describe*)

**D. Pest management**

1) Indicate all livestock pest problems.

- flies       internal parasites       external parasites       predators  
 other (*please describe*)

2) What prevention and control measures do you use to control for flies?

- sanitation/manure removal       commercial fly parasites/predators       sticky tape  
 walk-through fly traps       allowed/restricted pesticides       good quality feed  
 other (*please specify*)

3) What prevention and control measures do you use to control for internal and external parasites?

- probiotics       garlic or herbs       controlled grazing       multi-species grazing  
 allowed/restricted synthetic de-wormers       diatomaceous earth  
 other (*please describe*)

a) How do you monitor livestock for internal parasites?

- visual/body condition       fecal analysis       anemia evaluation  
 other (*please describe*)

b) How often is monitoring done?

- daily       weekly       other (*please describe*)

4) If external parasites are a problem, what prevention and control measures do you use?

- facility sanitation       facility fumigation       dust/mud wallows       sulfur dusts  
 diatomaceous earth       allowed/restricted pesticides       medications  
 other (*please describe*)

a) How do you monitor livestock for external parasites?

- visual inspection of animals       visual inspection of facility  
 other (*please describe*)

b) How often is monitoring done?

daily     weekly     other (*please describe*)

5) What control measures do you use for predators?

- restrict grazing when predation is frequent     artificial lighting     fencing     traps  
 corral/lock up animals at night     bird netting     hunting     guard animals  
 noise makers     other (*please describe*)

a) Do you take steps to ensure that your control measures do not harm other wildlife?     Yes     No

**E. Physical Alterations:**

- 1) List physical alteration practices you use     None used     castration     de-horning  
 ear notching     tail docking     branding     removal of extra teats  
 other (*please describe*)

2) Please describe physical alteration practices as listed above:

ALTERATION PRACTICE	METHOD USED AND MEANS FOR REDUCING LIVESTOCK STRESS	REASON FOR ALTERATION PRACTICE
