## Consent to Treat Property for Japanese Beetle Control

I understand that a Japanese beetle (*Popillia japonica*) infestation has been detected on or near my property. I give my consent to allow the Idaho State Department of Agriculture (ISDA) and its agents and employees to treat areas of my property containing lawn or turf (front and backyard) once during May & once in July of 2025 with a granular insecticide for control of JB larvae in the soil. Treatment weeks: May 20th-22nd, July 8th-10th. Treatment takes about 15 minutes depending on lawn size.

Caldwell Treatment  Pocatello Treatment  Homeowner  Current Resident
