BRAD LITTLE, GOVERNOR

CHANEL TEWALT, DIRECTOR

Consent to Treat Property for Japanese Beetle Control

I understand that a Japanese beetle (*Popillia japonica*) infestation has been detected on or near my property. I give my consent to allow the Idaho State Department of Agriculture (ISDA) and its agents and employees to treat areas of my property containing lawn or grass during 2026 with a granular insecticide for Japanese beetle larva control in the soil. Treatments are in mid-May and July. Treatment takes about 15 minutes depending on lawn size.
