To Whom It May Concern:

The state of Idaho, Department of Agriculture, Dairy Bureau attests to the following statement:

The Idaho State Department of Agriculture is the regulatory agency responsible for the sanitary production of milk and dairy products of Idaho

operates the following good manufacturing establishment(s):

These establishments are inspected at regular intervals by inspectors employed by the state of Idaho. The products containing dairy ingredients have been produced in premises that are registered or approved as having acceptable food safety standards governing the processing of dairy products for export. In the manufacturing of the product no proteins of ruminant origin, except milk and milk proteins, were used.

is under official supervision and the product(s) are freely and without qualification sold, used, and approved for in the state of Idaho, and in United States commerce, and are manufactured with ingredients from the United States. Dairy ingredients proceed from the country indicated in the document of origin or were legally imported. The animals from which the product was obtained were not fed ruminant origin meat and bone meal based in the country of origin; there are animal health regulations that forbid the feeding of ruminant origin meat and bone meal to ruminant animals.
