Application continued

Chapter 22, Title 22, Section 22-2205(7), Idaho Code, states: "Any waste-derived soil amendment or waste-derived plant amendment distributed as a single ingredient product or blended with other soil amendments or plant amendment ingredients must be identified as "waste derived soil amendment or plant amendment" by the applicant in the application for registration." Applications including waste-derived products must be accompanied by complete lab analysis, including but not limited to: arsenic (As), cadmium (Cd), mercury (Hg), lead (Pb), and selenium (Se) except that the following waste-derived products are **exempt** from this requirement: biosolids, composted manure, bone and blood meal, fish emulsion, vegetative and food wastes, and **new** gypsum boards (not collected from demolition sites).

Please include one (1) copy of each current label(s) for new or revised products. Photocopies are acceptable.
