

## Idaho State Department of Agriculture's Organic Product Profile

**Processing Aids:** Provide complete information about all processing aids used in the manufacture of this product.

PROCESSING AID	CHECK IF PROCESSING AID IS CERTIFIED 100% ORGANIC (✓)	IF NONORGANIC, CHECK IF PROCESSING AID IS ON THE NATIONAL LIST? (✓)	SUPPLIER	CERTIFYING AGENT
	<input type="checkbox"/>	<input type="checkbox"/>		
	<input type="checkbox"/>	<input type="checkbox"/>		

**Please Remember:**

- Certificates for all organic ingredients listed must be attached to this Organic Product Profile.
- Documentation must be attached to this Organic Product Profile which shows listed ingredients must not be produced using: Genetically Modified Organisms (GMO's); sewage sludge, ionizing radiation; a processing aid not on the National List; and that sulfites, nitrates or nitrites were not added during the production or handling process (except that wine containing added sulfites may be labeled “made with organic grapes”) for all products labeled “100% organic” or “organic”.
- GMO's include cell fusion, micro-encapsulation and macro-encapsulation, and recombinant DNA technology, (gene deletion, gene doubling, introducing a foreign gene, and changing the positions of genes when achieved by recombinant DNA technology).
- For products labeled as “100% organic” and “organic”, handlers are required to source organic ingredients when commercially available. Commercial availability is determined by three factors: appropriate form, quality, or quantity. This is not required for products labeled as “made with...”. However, ingredients must still be on the National List.
- Products labeled “organic” or “made with...” must not include organic and non-organic forms of the same ingredient, except that a non-organic ingredient in a product labeled “made with” may contain organic and non-organic forms of the same ingredient. This ingredient must not be labeled “organic” on the ingredient statement or be counted in the calculation of the product's organic %.
- Required for products labeled as 100% organic”.
