

**Idaho State Department of Agriculture
Division of Animal Industries
Application for Possession of Deleterious Exotic Animals**

1. Applicant

Name of Applicant: _____
Street Address: _____
Mailing Address (if different): _____
City, State, Zip Code: _____ Telephone: _____
Employer Identification Number or Social Security Number: _____

2. Facility Owner

Name of Facility Owner (if different than applicant): _____
Street Address: _____
Mailing Address (if different): _____
City, State, Zip Code: _____ Telephone: _____

Note: If the proposed facility will be leased, attach a written and notarized statement by the owner of the property authorizing the use of the proposed facility to house deleterious exotic animals.

3. Facility Operator

Operator of Proposed Facility (if different than applicant): _____
Street Address: _____
Mailing Address (if different): _____
City, State, Zip Code: _____ Telephone: _____

4. Facility Description

Attach a description of the proposed facility, including the following information:

- a. A map identifying the location of the proposed facility;
- b. The geographic location and legal description (township, range, and quarter section) of the proposed facility;
- c. The approximate total area of the proposed facility;
- d. A detailed diagram of the proposed facility, identifying fences, gates, and confinement areas; and
- e. The specifications of the confinement areas for all deleterious exotic animals listed on the application, identifying exterior fencing, interior fencing, fence height, fencing materials, size of confinement areas, etc.

5. Local Land Use Approval

Attach a copy of approval by the local zoning authority, if approval is required by the local zoning authority.

6. Deleterious Exotic Animals

For each deleterious exotic animal to be possessed at the proposed facility, attach the following information:

- a. Genus, species, sex, age, identification, and purpose for possessing the deleterious exotic animal;
- b. Name and address of the owner of each deleterious exotic animal;
- c. Name and address of the licensed Idaho veterinarian who will provide care for the deleterious exotic animal(s) listed in the application;
- d. Statement detailing the applicant's training and experience with the deleterious exotic animal species listed in the application;

- e. Statement detailing the procedure in the event a deleterious exotic animal escapes from the facility; and
- f. Provide proof of sterilization or use of a method of birth control administered by a licensed veterinarian and approved by the Administrator of the Division of Animal Industries, unless the applicant intends to propagate the deleterious exotic animal and fully satisfies the requirements in IDAPA 02.04.27.100.02, including obtaining approval from the Administrator to propagate the deleterious exotic animal.

7. Licenses, Accreditation, Memberships

Attach the following documentation, if applicable:

- a. Licenses issued by the United States Department of Agriculture (USDA);
- b. Licenses issued by the U.S. Fish and Wildlife Service;
- c. Accreditation issued by the Association of Zoos and Aquariums (AZA);
- d. Membership in the International Species Information System (ISIS); or
- e. Approved participation in a Population Management Plan (PMP) or Species Survival Plan (SSP) administered by the AZA.

8. Inspection

Provide the date the proposed facility will be available for inspection by Idaho State Department of Agriculture:

Date must be not less than seven (7) days prior to the time the deleterious exotic animals are possessed at the proposed facility.

9. Propagation (if applicable)

Applicants seeking permission to propagate deleterious exotic animals must meet the requirements in IDAPA 02.04.27.100.02:

- a. Obtain, and be in full compliance with, a possession permit issued by the Administrator;
- b. Obtain, and be in full compliance with, a USDA exhibitor's license for the facility where the deleterious exotic animals will be possessed;
- c. Be a member in good standing of ISIS; and
- d. Participate in a PMP or SSP administered by an AZA TAG.
- e. In the event a PMP or SSP does not exist for the deleterious exotic animal(s) a person seeks to propagate, the Administrator shall determine if the propagation of such deleterious exotic animal(s) carries a significant risk of injury to the agricultural industry, wildlife, or environment of the state. The person must provide the following information to the Administrator to assist the Administrator in making that determination (please attach statements in response):
 - i. The facility's capacity to hold deleterious exotic animals and any anticipated offspring;
 - ii. The frequency of the proposed propagation;
 - iii. The purpose(s) of the proposed propagation; and
 - iv. The destination or use of the anticipated offspring.

The ISDA Division of Animal Industries will consider this application and issue a written decision pursuant to the procedures set forth in IDAPA 02.04.27, Rules Governing Deleterious Exotic Animals.

Please submit this application, along with attachments to:

Idaho State Department of Agriculture, Division of Animal Industries, P.O. Box 7249, Boise, ID 83707.
