Subject: {External}Re: Dairy Byproduct Rulemaking
Date: Friday, December 14, 2018 4:37:34 PM

Dear Scott-

Thanks for sharing info on next week's meeting. Someone from ICL will be planning to attend the meeting next week. It could be Josh from our Ketchum office, so please let me know if there is a call in number that he might utilize?

I did review the minutes and while it included some discussion around application of byproduct above certain levels, ICL feels that these statements should be included as well:

From Ms. Leytem:

“If you wanna stick with a threshold and not an index, they need to justify the agronomic need, and that it's a political decision to allow addition of P if you're over 40 ppm”

and,

“you're doing waste disposal if you're applying additional P, when levels are at 40 ppm”

Thanks,
jonathan

Stakeholders –

Attached is the latest version of the Idaho Dairy Nutrient Management Standard for your review. The minutes from the last meeting have been posted on the rulemaking page of the ISDA website. The next rulemaking meeting is at 10am on Tuesday, December 18th at the ISDA Boise office. See you then.
