b. If a person manufactures, packs, or distributes a commodity at a place other than his principal place of business, the label may state the principal place of business in lieu of the actual place where the commodity was manufactured or packed or is to be distributed, unless such statement would be misleading. Where the commodity is not manufactured by the person whose name appears on the label, the name shall be qualified by a phrase that reveals the connection such person has with such commodity, such as "Manufactured for and packed by," "Distributed by," or any other wording of similar import that expresses the facts. (7-1-93)

The declaration of the quantity of a particular commodity shall be expressed in terms of liquid measure if the commodity is liquid, or in terms of weight if the commodity is solid, semisolid, viscous, or a mixture of solid and liquid, or in terms of numerical count. However, if there exists a firmly established general consumer usage and trade custom with respect to the terms used in expressing a declaration of quantity of a particular commodity, such declaration of quantity may be expressed in its traditional terms, if such traditional declaration gives accurate and adequate information as to the quantity of the commodity. (7-1-93)

06. Combination Declaration. (7-1-93)

a. A declaration of quantity in terms of weight shall be combined with appropriate declarations of the measure, count, and size of the individual units unless a declaration of weight alone is fully informative. (7-1-93)

b. A declaration of quantity in terms of measure shall be combined with appropriate declarations of the weight, count, and size of the individual units unless a declaration of measure alone is fully informative. (7-1-93)

c. A declaration of quantity in terms of count shall be combined with appropriate declarations of the weight, measure, and size of the individual units unless a declaration of count alone is fully informative. (7-1-93)

When the term “ounce” is employed in a declaration of liquid quantity, the declaration shall identify the particular meaning of the term by the use of the term “fluid”; however, such distinction may be omitted when, by association of terms (for example, as in “one (1) pint four (4) ounces”), the proper meaning is obvious. Whenever the declaration of quantity is in terms of the dry pint or dry quart, the declaration shall include the word “dry.” (7-1-93)

172. PRESCRIBED UNITS.

01. Less Than One Foot, One Square Foot, One Pound, or One Pint. The declaration of quantity shall be expressed as follows, provided, that the quantity declaration appearing on a random package may be expressed in terms of decimal fractions of the largest appropriate unit, the fraction being carried out to not more than two (2) decimal places: (7-1-93)

i. No square inch declaration is required for a bidimensional commodity of four (4) inches width or less; (7-1-93)

ii. A dimension of less than two (2) feet may be stated in inches within the parenthetical; and (7-1-93)

iii. Commodities consisting of usable individual units (except roll-type commodities with individual usable units created by perforations, see Subsection 173.03) require a declaration of unit area but not a declaration of

total area of all such units. (7-1-93)

The required quantity declaration may be supplemented by one (1) or more accurate declarations of weight, measure, or count, such declaration appearing other than on a principal display panel. Such supplemental statement of quantity of contents shall not include any terms qualifying a unit of weight, measure, or count that tends to exaggerate the amount of commodity contained in the package (e.g., “giant” quart, “full” gallon, “when packed,” “minimum,” or words of similar import). (7-1-93)

02. Metric System Declarations. A separate statement of the net quantity of contents in terms of the metric system is not regarded as a supplemental statement, and a statement of quantity in terms of the metric system of weight or measure may also appear on the principal display panel or on other panels. The metric system may be used as provided for by Section 71-229, Idaho Code, in lieu of the traditional system of weights and measures by substituting the proper metric terms where applicable in these rules. (7-1-93)

03. Qualification of Declaration Prohibited. In no case shall any declaration of quantity be qualified by the addition of the words “when packed,” “minimum,” or “not less than,” or any words of similar import, nor shall any unit of weight, measure, or count be qualified by any term (such as “jumbo,” “giant,” “full,” or the like) that tends to exaggerate the amount of commodity. However, if there exists a firmly established general consumer usage and trade custom with respect to the terms used in expressing a declaration of quantity of a particular commodity, such declaration of quantity may be expressed in its traditional terms, if such traditional declaration gives accurate and adequate information as to the quantity of the commodity. (7-1-93)

03. Units -- Weight, Measure. A declaration of quantity: (7-1-93)

260. VARIATIONS TO BE ALLOWED.

01. Packaging Variations.

(7-1-93)

a. Variations from Declared Net Quantity. Variations from the declared net weight, measure, or count shall be permitted when caused by unavoidable deviations in weighing, measuring, or counting the contents of individual packages that occur in good packaging practice, but such variations shall not be permitted to such extent that the average of the quantities in the packages of a particular commodity, or a lot of the commodity that is kept, offered, or exposed for sale, or sold, is below the quantity stated, and no unreasonable shortage in any package shall be permitted, even though overages in other packages in the same shipment, delivery, or lot compensate for such shortage. Variations above the declared quantity shall not be unreasonably large. (7-1-93)

b. Variations Resulting from Exposure. Variations from the declared weight or measure shall be permitted when caused by ordinary and customary exposure to conditions that normally occur in good distribution practice and that unavoidably result in change of weight or measure, but only after the commodity is introduced into intrastate commerce, provided that the phrase "introduced into intrastate commerce" as used in this paragraph shall be construed to define the time and the place at which the first sale and delivery of a package is made within the state, the delivery being either: (7-1-93)

i. Directly to the purchaser or to his agent; or (7-1-93)

ii. To a common carrier for shipment to the purchaser, and this paragraph shall be construed as requiring that, so long as a shipment, delivery, or lot of packages of a particular commodity remains in the possession or under the control of the packager or the person who introduces the package into intrastate commerce, exposure variations shall not be permitted. (7-1-93)

02. Magnitude of Permitted Variations. The magnitude of variations permitted under Section 260 of this rule shall, in the case of any shipment, delivery, or lot, be determined by the facts in the individual case. (7-1-93)

(7-1-93)

271. ADVERTISING PACKAGES FOR SALE.

Whenever a packaged commodity is advertised in any manner with the retail price stated, there shall be closely and conspicuously associated with the retail price a declaration of quantity as is required by law or rule to appear on the package. Where a dual declaration is required, only the declaration that sets forth the quantity in terms of the smaller unit of weight or measure need appear in the advertisement. And provided further, that there shall not be included as part of the package declaration required under this section such qualifying terms as "when packed," "minimum," "not less than," or any other terms of similar import, nor any term qualifying a unit of weight, measure, or count (for example, "jumbo," "giant," "full," and the like) that tends to exaggerate the amount of commodity in the package.
