**AGENDA ITEMS**

**WELCOME**

Lloyd Knight convened the meeting at 9:50 a.m. He explained that this is a combination of eleven rules into one chapter. The code sites were reviewed and redundant language eliminated. Since this is not the normal time of year for negotiated rulemaking, no substantive changes were made. The comment period ends September 20. The proposed rule will be published in the November Bulletin. He explained that the involvement of stakeholders in the legislative process is important and thanked those who attended the meeting.

Lloyd Knight showed on the website where to find the rules that are being combined. The rules being combined into “IDAPA 02.06.05 Rules Governing Plant Diseases and Quarantines” include:

- IDAPA 02.06.05 Rules Governing Diseases of Hops;
- IDAPA 02.06.07 Rules Concerning White Rot Disease of Onion;
- IDAPA 02.06.08 Quarantine Rules Pertaining to Apples and Cherries;
- IDAPA 02.06.11 Rules Governing European Corn Borer;
- IDAPA 02.06.15 Rules Governing Peach Tree Diseases;
- IDAPA 02.06.17 Rules Governing the Disposal of Cull Onions and Potatoes;
- IDAPA 02.06.18 Rules Governing Mint Rootstock and Clone Production;
- IDAPA 02.06.20 Rules Governing Grape Planting Stock;
- IDAPA 02.06.24 Rules Governing the Japanese Beetle;
- IDAPA 02.06.32 Rules concerning the Anthracnose Disease of Lentil; and
- IDAPA 02.06.36 Rules Governing Plum Curculio.

Lloyd Knight explained that the bean rule was not combined with other rules and will stand alone. He indicated that there is no hierarchy for the above rules in subchapters. The order was based on the numerical order. The grape subchapter H has changes that were negotiated in another rulemaking.

Lloyd Knight adjourned the meeting at 9:55 a.m.

Respectfully submitted by Janis Perry.
