## CAUTION

#### Directions for Use

Refer to product label for General Use Precautions, Mixing and Application instructions.

**Maximum Application Rate:** Do not apply more than 8.2 fl oz of Quintec per acre per application or more than 33 fl oz of Quintec per acre per calendar year.

**Minimum Spray Interval:** 10 – 14 days. Use the shorter interval within the range for severe or threatening disease conditions.

**Preharvest Interval:** Do not apply within 21 days of harvest.

Quintec is in mode of action Group 13. Do not make more than four applications of Quintec per calendar year, nor more than two consecutive applications of Quintec before alternating to a fungicide that has a different mode of action and that is effective on local populations of the target powdery mildew pathogen. Alternate product should be applied within 14 days of applying Quintec.
