To Whom It May Concern:

Subject: HB 44 change—UR.2.2.1. **Exceptions for Sale of Aviation Fuel**

At the NCWM meeting held July 26-29, 1999 a change to the user requirements in the Vehicle-Tank Meter code UR.2.2. Ticket Printer; Customer Ticket was adopted. The change was to add UR.2.2.1. which is:

UR.2.2.1. Exceptions for the Sale of Aviation Fuel.- The provisions of UR2.2. Ticket Printer; Customer Ticket shall not apply to vehicle-mounted metering systems used solely for the sale of aviation fuel into aircraft and for aircraft-related operations.

ISDA Bureau of Weights and Measures does adopt NIST Handbook 44 by reference. This change will be in the 2000 Handbook and will become part of our code when the handbook is printed.

ISDA adopted rules effective September 1, 1998 that extended the retroactive printer requirement of UR.2.2. for all vehicle mounted metering systems from January 1, 1999 to January 1, 2002. This requirement will remain for all vehicle mounted metering systems except those used solely for the sale of aviation fuel into aircraft.
