Subject: {External}Public Comment Extension Request for IDAPA 02.03.03

Good afternoon,

This email is to request an extension of the second public comment period on draft changes to Rules Governing Pesticide and Chemigation Use and Application IDAPA 02.03.03

We are requesting an extension of one week, which would provide a total of two weeks for additional information provided at the second public meeting to be considered and incorporated into our comment.

The second public meeting took place August 4, the current deadline for the second round of comments is Tuesday, Aug 11.

The request is to extend the second comment period to Monday, Aug 17.

Thank you in advance for your consideration and for your service.

Sincerely,
Christina Stucker-Gassi
