Re: Pesticide & Chemigation Negotiated Rule Making

Dear Deputy Director Oakey,

The Idaho Association of Weed Control Superintendents (IAWCS) represents almost every Weed Superintendent in the State of Idaho. We work closely with local landowners, farmers and ranchers in addition to local, state and federal agencies in controlling noxious weeds throughout the State.

We have participated as a stakeholder in both strawman and appreciate the reinstatement of the 10 mph wind restriction, as well as, the consideration of the new Commercial Apprentice (CA) category based on the comments received from various members of our association.

Thank you for the opportunity to be a part of the negotiated rulemaking process as well as the ability to comment.

Sincerely,

Kali Sherrill, Chair
Idaho Association Weed Control Superintendents
