Subject: {External}Proposed Revisions to IDAPA 02.06.06 Rules Governing the Planting of Beans
Date: Thursday, April 15, 2021 1:17:14 PM

Lloyd:

Idaho Crop Improvement Association would like to submit the following proposed revisions to the Bean Planting Rules for consideration during rule making meetings:

151. INSPECTION (NON-PHASEOLUS)

All imported or Idaho origin seeds intended for planting or replanting in Idaho shall be submitted to the Department **or ICIA** for growing season and pre-harvest/windrow inspections.

201. REQUIREMENTS FOR PLANTING BEAN SEED IN IDAHO (NON-PHASEOLUS).

In order to be eligible for planting seed in Idaho:

01. Idaho Origin Seed to Be Replanted. Seeds planted must be from a lot that was produced in accordance with these rules and has an in-state planting tag number (state number) assigned by the Department based on growing season and pre-harvest or windrow inspections and be tagged by the Department with a Department In-State Planting Tag (Green tag) **or be tagged by the ICIA in accordance with these rules.**

06. Tags. Seeds planted in Idaho shall be from an approved lot bearing an approved tag on each bag or container, stating the kind, variety, and lot number. The following is a list of approved planting tags in Idaho:

- a. Department in-state planting tag (green tag);
- b. Department approved tag (yellow tag);
- c. ICIA tag, provided the lot was field and windrow inspected by ICIA in accordance to these rules; or**
- ~~c.~~ **d.** Oregon Department of Agriculture inspection tag.

The proposed changes are intended to match language concerning ICIA in the Phaseolus and Non-Phaseolus sections of the rule.

Thank you.
