Raw Milk Stakeholders –

The updated version of the Raw Milk Strawman has been posted to the ISDA rulemaking website. The document is titled “Post Meeting Strawman”. Please use the following link to access the document:

<https://agri.idaho.gov/main/i-need-to/see-lawsrules/rulemaking/isda-rulemaking-2021-2022/>

For purposes of clarification of the new language, the nutrient management plan (NMP) requirement in this rule will only come into play for those raw dairies choosing to milk more than 30 cows; 150 goats or 150 sheep (or any combination of the three that totals more than 30 Animal Units). Please remember, the comment period for this rule closes on June 20. If you have any questions, please feel free to contact me or Lloyd Knight. Thank you.
