DOCKET NO. 02-0609-2401
NOTICE OF RULEMAKING – ADOPTION OF TEMPORARY RULE

EFFECTIVE DATE: The effective date of the temporary rule being adopted through this rulemaking is the 2nd Regular Session of the 67th Idaho Legislature’s adjournment on *sine die*, 2024.

AUTHORITY: In compliance with Sections 67-5226, Idaho Code, notice is hereby given this agency has adopted a temporary rule. The action is authorized pursuant to Sections 22-2004, 22-2006, 22-2012, and 22-2013, Idaho Code.

DESCRIPTIVE SUMMARY: The following is the required finding and concise statement of its supporting reasons for adopting a temporary rule:

Invasive quagga mussel samples were recently discovered in the Snake River. Left unchecked, quagga mussels pose a significant threat to the health and safety of Idaho’s environment, and water use as well as threaten Idaho’s economy. Accordingly, the Director has exercised the authority granted to them under Idaho law to quarantine certain areas of the snake river until the Department is able to eradicate any existing quagga mussels. This new temporary rule replaces the December 18 update to the same rule by allowing for restricted access to the river at defined locations and per a defined requirement for watercraft and conveyances to be inspected and decontaminated and decontaminated as needed prior to launch and decontaminated upon exit.

TEMPORARY RULE JUSTIFICATION: Pursuant to Section(s) 67-5226(1)(a), Idaho Code, the Governor has found that temporary adoption of the rule is appropriate for the following reasons:

Protection for and maintaining the safety of property and aquatic plant life.

FEE SUMMARY: Pursuant to Section 67-5226(2), the Governor has found that the fee or charge being imposed or increased is justified and necessary to avoid immediate danger and the fee is described herein:

There is no fee being charged by this temporary rule.

All public access to the Snake River via watercraft or other conveyance between Pillar Falls and Twin Falls hydroelectric facility is prohibited. Access to the river by watercraft or other conveyance between the bottom of Yingst Grade (known as “the Broken Bridge”, “Yingst Grade Bridge”, the “Old Interstate Bridge”), which is approximately one-half (1/2) mile upstream of Auger Falls, and Pillar Falls is restricted. Launch of watercraft in this section is restricted to the hours when the watercraft inspection station at Centennial Park is in operation and requires inspection and decontamination of all conveyances and watercraft by ISDA or an assigned entity prior to launch into and upon exit from the water. This requirement applies to all motorized and non-motorized watercraft of any size, including paddle boards and kayaks. (SD 2024)T
