TO ALL SELLERS OF PREPACKAGED FIREWOOD...

It has come to the attention of the Bureau of Weights and Measures that substantial quantities of prepackaged firewood are being merchandised throughout Idaho without benefit of a quantity declaration or distributors label being affixed to the package.

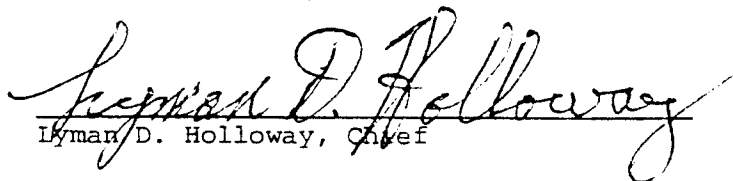

This memo is to advise you that Idaho Weights and Measures codes require that all such commodities be clearly identified as to the quantity contained, and in the case of firewood this quantity is identified as a cord(s) or fraction of a cord, such as cubic feet.

Firewood being sold and not thus marked may be removed from sale by the local Weights and Measures official and returned to the supplier. Therefore, when purchasing firewood for resale, please make certain that it bears a legible quantity declaration and distributor, manufacturer, or packers identification label.

If you are in doubt as to whether or not any lot meets this requirement please contact:

IDAHO DEPARTMENT OF AGRICULTURE
BUREAU OF WEIGHTS & MEASURES
2216 KELLOGG LANE
BOISE, IDAHO 83702
PHONE: 208/384-2345

or your local Weights and Measures officer.

Lyman D. Holloway, Chief
