INTRODUCTIONS AND SUMMARY

Jared reviewed the rulemaking process, what to expect, and roles and responsibilities.

REVIEW OF CURRENT RULE AND PROPOSED CHANGES

The rule was presented on screen for everyone. The participants collectively reviewed the rule section by section and the recommended edits.

Most edits being made are either general clean up edits that are recommended by the Division of Financial Management across the board for all rules or removal of duplicate information that is in HB 130 which is incorporated by reference at the beginning of the rule.

Other edits include:

Section 011 – delete this section and add the NIST abbreviation in section 004.01 behind “National Institute of Standards and Technology.

Section 016 – Combine device codes D, E, and F stating in the key anything greater than 7,500 pounds.

Section 100.01.a – edit to say “current state mileage rate per the state travel policy”

Section 600 – If section is covered by HB44, remove. If there is something in section 600 not covered by HB44, keep the section as is.
