

FENAZAQUIN	GROUP	21A	ACARICIDE
FENAZAQUIN	GROUP	39	FUNGICIDE

FIFRA § 24(c) REGISTRATION
EPA SLN No.: ID-260003

SPECIAL LOCAL NEED REGISTRATION

FOR DISTRIBUTION AND USE ONLY IN THE STATE OF IDAHO
FOR CONTROL OF MITES AND CORN PLANTHOPPER IN CORN GROWN FOR SEED

EPA Reg. No. 10163-322

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container before applying. Carefully follow all precautionary statements and applicable use directions.
- Use Magister SC according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container.

Directions for Use

CROP	RATE FL OZ/ACRE	LB A.I./ACRE	COMMENTS
CORN GROWN FOR SEED 	32 - 36	0.40 - 0.45	Use a minimum of 5 gpa. • Do not make more than one application per year. • Do not exceed application rate of 36 fl oz (0.45 lb a.i.).

RESTRICTIONS ON ALL CROPS:

- Do not apply by any type of irrigation system.
- Only ground sprayer, airblast and aerial applications are permitted.
- Do not apply during conditions when product will drift to other crops and non-target areas.
- Do not apply within 100 feet of water bodies (including, but not limited to, lakes; reservoirs; rivers; permanent streams; marshes or natural ponds; estuaries; and commercial fish farm ponds).
- Do not plant rotational crops, other than those on this label, within 30 days of this application. Do not plant root, tuber and bulb vegetables within 120 days of this application.

Use Restrictions:

1. For use on fields in the production of corn seed. Not for use on fields producing corn for livestock feed. No portion of the treated field, including seed, seed screenings, hay, forage or stubble, may be used for human or animal consumption.
2. All seed screenings must be disposed of in such a way that they cannot be recovered and used for food or feed.
3. Processed seed must be labeled "**Not for human or animal consumption**" at the processing plant.
4. Use of this product according to this labeling is considered a non-food use.

PROTECTION OF POLLINATORS

APPLICATION RESTRICTIONS EXIST FOR THIS PRODUCT BECAUSE OF RISK TO BEES AND OTHER INSECT POLLINATORS. FOLLOW APPLICATION RESTRICTIONS FOUND IN THE DIRECTIONS FOR USE TO PROTECT POLLINATORS.

Look for the bee hazard icon in the Directions for Use for each application site for specific use restrictions and instructions to protect bees and other insect pollinators.

This product can kill bees and other insect pollinators.

Bees and other insect pollinators will forage on plants when they flower, shed pollen, or produce nectar.

When Using This Product Take Steps To:

- Minimize exposure of this product to bees and other insect pollinators when they are foraging on pollinator attractive plants around the application site.
- Minimize drift of this product on to beehives or to off-site pollinator attractive habitat. Drift of this product onto beehives or off-site to pollinator attractive habitat can result in bee kills.

Information on protecting bees and other insect pollinators may be found at the Pesticide Environmental Stewardship website at: <http://pesticidestewardship.org/PollinatorProtection/Pages/default.aspx>.

Pesticide incidents (for example, bee kills) should immediately be reported to the state/tribal lead agency. For contact information for your state, go to: www.aapco.org/officials.html. Pesticide incidents should also be reported to the National Pesticide Information Center at: www.npic.orst.edu* or directly to EPA at: beekill@epa.gov†
