

Swine

All swine require:

- CVI with complete physical destination address.
- Individual, official identification listed on the CVI.
- The following statements:
 - ⇒ "These swine have not been fed raw garbage."
 - ⇒ "These swine have not received any pseudorabies vaccine."
 - ⇒ "To the best of my knowledge, these swine have not within the last 30 days originated from a premises known to be affected by PEDv and have not been exposed to PEDv."
- All breeding swine not originating from a brucellosis-free herd/state must have a negative brucellosis test within 30 days before movement into Idaho.

Please call our office if swine originate from an area which is not stage IV or V for pseudorabies.

Birds

All birds require:

- CVI with complete physical destination address.

Poultry, game birds, ratites, wildfowl & waterfowl also require:

- VS 9-3 if from a certified NPIP flock, or
- Negative *Salmonella pullorum*-typhoid test within 30 days before entry.

All wild birds also require:

- Entry Permit.
- Idaho Fish and Game may have further requirements.

Please note that disease status changes can impact import requirements. If you are shipping from a state that has had a recent animal health concern, always check the website for the most current requirements.

This brochure provides basic requirements – **you are responsible for being in compliance with them.**

If you have any questions or do not see the species you would like to import listed here, contact ISDA at 208-332-8540.

Idaho Livestock Imports

Division of Animal Industries

Regulations can also be viewed at <https://agri.idaho.gov/animals/imports-exports/>

Cattle

Cattle that require official identification to be listed on the Certificate of Veterinary Inspection (CVI):

- All dairy cattle of any age
- All sexually intact beef cattle (male and female) 18 months of age or older
- All cattle moving interstate for shows or rodeos

All cattle require:

- CVI with complete physical destination address.
- If being used for rodeo, all cattle ≥ 6 months require a negative TB within 12 months before entering Idaho.

Female cattle also require:

- Vaccination for brucellosis with legible tattoo recorded on CVI (<4 months and approved feedlots are exempt).
- All dairy breeds and unvaccinated females require an entry permit or approved eCVI.
- All dairy breed females ≥ 6 months require a negative Tuberculosis test within 60 days prior to entering Idaho (approved feedlots are exempt).

Intact male cattle also require:

- Entry permit or approved eCVI.
- "Virgin Bull" statement if virgin **and** <18 months, or negative PCR Trich test within 60 days if ≥ 18 months (approved feedlots are exempt).
- All dairy breed males ≥ 6 months require a negative TB within 60 days before entering Idaho (approved feedlots are exempt).

Cattle Identification

Official forms of ID:

- USDA ear tags (840-RFIDs, Orange or Silver "brite" tags *if placed before 11/5/2024*).

Non-Official forms of ID:

- RFIDs other than 840s
- Registration tattoos or other breed association identification
- Trich tags
- Farm/Ranch tags
- Brands from state other than Nevada, Oregon, Utah, or Wyoming
 - Official ID is still required, and the CVI must have the common brand and statement that all animals have individual official ID.

Other Species

Fur species (skunk, raccoon, fox, and mink) require:

- CVI with complete physical destination address.
- Entry permit or approved eCVI.
- Mink require a negative Counterelectrophoresis (CEP) test within 30 days before importation.
- Raccoons, skunks and foxes can only be possessed by active fur farms and USDA-licensed exhibitors.

All camelids require:

- CVI with complete physical destination address.

All fish and fish eggs require:

- CVI or current AFS Health Inspection with full physical destination address.
- An entry permit.
- Invoice or Bill of Lading.

Equines

All equines require:

- CVI with complete physical destination address. GlobalVetLink EECVIs are the only extended certificates currently accepted.
- Negative EIA test within 12 months before entering Idaho. Pending tests are not acceptable.
 - * The only exemption is foals less than 6 months old with their EIA negative dam. Other Non-EIA tested horses may only be destined to an equine slaughter facility and require an entry permit or approved eCVI.

Cervidae

All Cervidae require:

- Completed and approved Idaho Domestic Cervidae Import Application with entry permit.
- CVI with complete physical destination address.
 - 2 listed forms of official identification
- Origination from herd actively participating in CWD Herd Certification Program and have certified CWD free status.
- Completed Tuberculosis testing and met *p. tenuis* requirements.

Sheep & Goats

All sheep and goats require:

- Entry Permit from the Sheep and Goat Health Board (208-803-5084).
- Official & Flock IDs listed on CVI with complete physical destination address.

Intact dairy goats and intact male sheep ≥ 6 months also require:

- Negative brucellosis test within 30 days before entry (*B. ovis* for sheep and *B. melitensis* for goats).
